TEXAS REPORTS ON BIOLOGY AND MEDICINE

VOLUME 27, 1969

No. 1: 1–176; No. 2: 317–531; No. 3: 709–938; No. 4: 939–1112
Suppl. 1.—Cholera: 177–316; Suppl. 2—Thiabendazole: 533–708

Author Index

Alexander, Edmond S., 714 (art)
Anigstein, Dorothy M., 341, 753
Anigstein, Ludwik, 341, 753
Ash, Stephen R., 909
Autengruber, Milan, 2 (photo)

Bass, Joseph A., 457
Battistini, Francisco, 645
Beathard, G. A., 497
Beathard, Gerald A., 327, 715, 1105
Becker, Robert E., 997
Benge, M. C., 803
Bevelander, Gerrit, 101
Bjork, Lars, 57
Blackburn, Glenn K., Jr., 910
Bolooki, Hooshang, 910
Borkowski, John, 910
Bowes, Larry D., 911
Bowman, Barbara H., 769
Bramel, R. G., 693
Bridgeforth, E. B., 243
Brown, Horace, 533
Bruckman, James E., 911
Bryan, Nick, 27
Bullock, Joseph D., 912

Callahan, Hugh J., 912
Cameron, I. L., 367
Campbell, William C., 665
Canales, C. O., 497
Canales, Carlos O., 327
Carbonell, Antonio M., 912
Carpenter, C. C. J., 203
Carrier, Gerald O., 381
Carrier, Oliver, Jr., 381
Charlton, K. M., 389
Charney, Jesse, 1027
Chavarria, Antonio Pena, 629
Chopra, Harish C., 945
Chuttani, H. K., 597

Cooper, Judith M., 913
Cooper, R. G., 955
Cornell, C. N., 955
Courvoisie, Helen E., 913
Crisp, Thomas M., 35
Cuckler, Ashton C., 665

Daniels, Jerry C., 913
Davis, Craig W., 914
Davis, Joseph H., 623
De Beukelaer, Martin, 513
De Lane, Larry R., 914, 963
Deaton, John G., 763
Decherd, Jonathan, 1105
Dmochowski, Leon, 437, 839
Duncan, Donald, 969
Duncan, Paul R., 915

TEXAS REPORTS ON BIOLOGY AND MEDICINE

VOLUME 27, 1969

No. 1: 1–176; No. 2: 317–531; No. 3: 709–938; No. 4: 939–1112
Suppl. 1—Cholera: 177–316; Suppl. 2—Thiabendazole: 533–708

Subject Index

Adenine nucleotides, the physiologic regulation of erythrocyte metabolism; Mills; 773

Adrenal cortex, ultrastructure in induced adrenal cortical insufficiency; Irino and Grollman; 81

Adrenal cortical hypertrophy, light and electron microscopic studies; Seelig and Rennels; 821

Adrenalectomy, influence of it and cortisol on leukocytic response to *S. aureus* infection; Higginbotham; 67

Adrenocortical tissue, effect of cyanoketone, ACTH-administration and unilateral adrenalectomy on; Levin; 924

Aldosterone receptor sites in tissues and cells; Cameron, Tolman and Harrington; 367

Amoebocytes, electron microscope study of thorotrast ingestion; Nakahara and Bevelander; 101

Amyloid, fine structure of amyloid-containing livers; Duncan, Rigdon and Morales; 969

Anesthetics, electrophysiological effects of volatiles on frog gastric mucosa; Blackburn; 910

Angina pectoris, the role of temporary segmental myocardial ischemia in manifestation of; Bolooki; 910

Antibiotic, studies on the action of streptolydigin; Erbstoeszer; 916

Antigens, common leukemia ones in different animal species; Maruyama and Dmochowski; 437

Antigens, normal in tumor cells; Milas and Suit; 467

Antigens, some properties of mouse protective antigens derived from *Vibrio cholerae;* Watanabe, Verwey, Guckian, Williams, Phillips and Rocha; 275

Antiserum, tumor induced by human spinal meningioma implant in mice inoculated with human thymus antiserum; Anigstein, Anigstein and Unterharnscheidt; 341

Antithymocyte serum, an enhanced effect in germfree mice; Mandel; 925

Arginase, investigation of metal binding to; Duncan; 915

Art of Medicine; Schreiber; 1

Arthritis, rheumatoid and lupus erythematosus from a defect in inflammation; Stone; 323

Atrial pacing, atrioventricular node transfer; Grube; 919

Autoimmunization, ultrastructure of adrenal cortex in induced adrenal cortical insufficiency; Irino and Grollman; 81

Basal ganglia, dopamine sites; Wood and Runyan; 1077

Behavioral genetics; Manosevitz; 1089

Benzimidazoles, chemistry of thiabendazole; Brown; 533

Benzo (a) pyrene, in leukemic mice; Rigdon, Benge, Kirchoff, Mack and Neal; 803

Bladder, of *Bufo marinus* as an excretory organ for potassium; Kallus and Vanatta; 419

Blood flow, a particle distribution method for estimating regional cerebral flow; Tschetter; 936

Blood flow, through developing hista-

mine and reserpine erosions in dogs; Raizman; 931
Burns, multiple anti Gm antibodies in polytransfused burned children; Wolf; 938

Calcium, alteration of its effects in mice by reserpine; Carrier, Hume and Carrier; 381
Calcium, effect of exogenous calcium on ultimobrancial and parathyroid activity in the chick; Mueller; 928
Cancer, and air pollution in a petrochemical area; Neal and Rigdon; 787
Cancer, viruslike particles in human breast; Chopra and Feller; 945
Cardiac arrythmias, digital computer diagnosis of in postoperative patients; Rabin; 930
Cardiac dynamics, measurement of ventricular size using cineradiography; Hamner and Bjork; 57
Cardiac rhythms, on-line computer classification of: a problem in P wave pattern recognition; Millar; 928
Cations, effects on glucose dehydiogenase and glucose-6-phosphate dehydiogenase Fiechtner; 917
Cells, receptor sites for aldosterone; Cameron, Tolman and Harrington; 367
Central nervous system, chronic untreated case of coccidioidomycosis; Unterharnscheidt, Beukelaer and Simon; 513
Central nervous system trauma; Unterharnscheidt and Higgins; 127
Ceruloplasmin, demonstration of inherited variants by acrylamide electrophoresis; McCombs and Bowman, 769
Cetacean, early development of pituitary gland; Sinclair; 1065
Cholera, fluid loss; Greenough and Carpenter; 203
Cholera, renewed attack on ancient scourge; Feeley; 177
Cholera, review of epidemiological studies; Mosley; 227
Cholera, some properties of mouse protective antigens; Watanabe, Verwey, Guckian, Williams, Phillips and Rocha; 275
Cholera, studies of the mechanism of action of intestinal antibody; Freter; 299
Cholera, vaccines, toxin and toxoid; Feeley and Roberts; 213
Cholera vaccine, serological responses of human volunteers; Verwey, Watanabe, Guckian, Williams, Phillips, Rocha and Bridgeforth; 243
Choleragen, in the pathogenesis and immunology of cholera; Finkelstein; 181
Chromatography, examination of human brain sterols; Van Lier and Smith; 167
Chromosomes, effects of mitomycin, a potential recombinogen in mammalian cell genetics; German and La Rock; 409
Chromosomes, number and morphology in two cyprinid fishes; Lieppman and Hubbs; 427
Cineradiography, measurement of ventricular size; Hamner and Bjork; 57
Cirrhosis, relation to arterial hypertension; Manohar; 926
Coccidioidomycosis, chronic untreated case of; Unterharnscheidt, Beukelaer and Simon; 513
Colostrum, synthesis of secretory IgA by human colostral cells; Murillo; 928
Computer calculations, in the biomedical sciences; Novak and Furlong; 1041
Concussion, cellular response in the brain; Bryan and Walker; 27
Connective tissue metabolism; Shurley, Hinkle, Hern and Shetlar; 1057
Cortisol, combined with thymus antiserum—their effects on sarcoma 180 and antibody responses; Anigstein and Anigstein; 753
Coyotillo, neuropathy in experimental poisoning in goats; Charlton and Pierce; 389
Creeping eruption, treatment by thiabendazole; Battistini; 645
Creeping eruption; treatment by thiabendazole; Stone; 659
Cytology, preparation of fish chromo-

somes for karyological analysis; Lieppman and Hubbs; 427

Dehydrogenase, ovarian steroid activity in the gonadotrophin-treated immature rat; Crisp; 35
Demyelination, neuropathy in experimental coyotillo poisoning in goats; Charlton and Pierce; 389
Dentin solubility and stannous fluoride; Sandoval and Shannon; 111
Dixon plot, limitations in ascertaining enzyme inhibition; Schlamowitz, Shaw and Jackson; 483
Dopamine, sites in basal ganglia; Wood and Runyan; 1077
Dracunculiasis, treatment by thiabendazole; Raffier; 601
Drugs, actions and effects of immunosuppressive ones; Sarles, Thomas, Remmers, Canales, Smith and Beathard; 327

Editorial; Schreiber; 1, 317, 939
Editorial, Tupin, 709
Electrolytes, their excretion in palmar sweat and saliva of the rhesus monkey; Bruckman; 911
Electron microscopy, fine structure of amyloid-containing livers; Duncan, Rigdon and Morales; 969
Electron microscopy, studies on adrenal cortical hypertrophy; Seelig and Rennels; 821
Electrophoresis, demonstration of inherited ceruloplasmin variants; McCombs and Bowman; 769
Electrophoresis, normal lipoprotein values; Borkowski; 910
Enterobius vermicularis, treatment by thiabendazole; Mathies; 611
Enzyme inhibition, limitations of the Dixon plot for ascertaining its nature; Schlamowitz, Shaw and Jackson; 483
Enzymes, of the mitochondria in brains from hypothermic groundsquirrels and rats; Stewart; 935
Erythrocyte metabolism, physiologic regulation; Mills; 773
Estrous behaviour, induction with intracerebral progesterone in ovariectomized rats; Ross; 932

Fertility, effect of an anti-fertility preparation on a fibrogen-fibrinolysin system in vitro; Field; 917
Foreword; Stone, supplement 2, vii
Foreword; Verwey; supplement 1, v
Fungus, thiabendazole's toxicological, pharmacological and antifungal properties; Robinson, Sibler and Graessle; 537

Gene, To (poem); Sinclair; 711
Genotype X environment interaction; Manosevitz; 1089
Glia, cellular response in the brain to concussion; Bryan and Walker; 27
Globulin, antihuman lymphocyte; Townsend, Vyvial, Wood, Remmers, Sarles, Canales, Beathard, Fish, Muniz, Levin and Ritzmann; 497
Glycoprotein biosynthesis: incorporation of radioactive lysine or glucosamine into interstitial cell-stimulating hormone; Gan; 985
Goiter, history in Bolivia, Paraguay, Brazil; Greenwald; 7
Gonadotrophin stimulation of ovary; Crisp; 35
Gonads, embryogenesis in the dolphin; Sinclair; 489
Graft, normal tissue antigens of tumor cells; Milas and Suit; 467
Graft, renal transplantation and rejection; Beathard; 715
Haptoglobin, demonstration of inherited ceruloplasmin variants in human serum by acrylamide electrophoresis; McCombs and Bowman; 769
Helminths, treatment by thiabendazole; Campbell and Cuckler; 665
Hemodilution, the beneficial effect of blood flow in head injuries; Mead; 927
Hemodynamics, isoproterenol and acid-base; Greenburg; 919
Hemorrhage, platelet adhesion in bleeder swine; Cooper, Cornell, Muhrer and Garb; 955
Hookworm, treatment by thiabendazole

and related compounds; Chuttani and Ghouri; 597
Hyaline membranes, in adults receiving oxygen therapy; Greenberg, Gyorkey and O'Neal; 1005
Hypothyroidism, hearing in; Stecker; 934

Immunity, increased resistance to staphylococcal infection following administration of beef heart extract; McCoy, Verwey and Bass; 457
Immunity, serum protein and immunoglobulin levels in rabbits in response to immunization with mycobacterial antigen; Smith; 933
Immunodiffusion, radial technique applicable to capillary blood; Kassay; 922
Immunofluorescence studies of a lymphoid cell line; Trujillo, Shively, List-Young and Gott; 117
Immunology, responses to cholera vaccines, toxins and toxoid; Feeley and Roberts; 213
Immunology, review of epidemiological and serological studies of immunity's role in cholera; Mosley; 227
Immunology, serological responses of human volunteers to cholera vaccine; Verwey, Watanabe, Guckian, Williams, Phillips, Rocha and Bridgeforth; 243
Immunology, some properties of mouse protective antigens derived from *Vibrio cholerae;* Watanabe, Verwey, Guckian, Williams, Phillips and Rocha; 275
Immunology, studies of the mechanism of action of intestinal antibody in experimental cholera; Freter; 299
Immunosuppression, effects of cortisol and thymus antiserum on sarcoma 180 and antibody responses; Anigstein and Anigstein; 753
Immunosuppressive drugs, their actions and effects; Sarles, Thomas, Remmers, Canales, Smith and Beathard; 327
Inflammation, a defect in it causing rheumatoid arthritis and lupus erythematosus; Stone; 323
Inflammation, inflammatory response in the neonate—re-examined; Bullock; 912
Interstitial cell-stimulating hormone, glycoprotein biosynthesis; Gan; 985
Intestinal immunity, mechanism of its action in experimental cholera; Freter; 299

Juxtaglomerular apparatus, its evolution in vertebrate kidneys; Sokabe, Ogawa, Oguri and Nishimura; 867

Kallilrein, levels in submaxillary saliva of normal children and children with cystic fibrosis; Soslow; 934
Karyology, analysis of two cyprinid fishes; Lieppman and Hubbs; 427
KB cells; Higgins, Tillman, Leach, Melnykovych and Leach; 1013
Kidneys, evolution of vertebrate juxtaglomerular apparatus; Sokabe, Ogawa, Oguri and Nishimura; 867

Laparotomy; Weir, Decherd and Beathard; 1105
Larvicidal effects of thiabendazole on helminths; Egerton; 561
Laryngeal dysfunction, role in the development of postvagotomy lung syndrome; Rappaport; 931
Leriche's Syndrome (poem); Greenstein; 319
Leukemia, common antigens in different animal species; Maruyama and Dmochowski; 437
Leukemia, low leukocyte counts in chronic lymphocytic leukemia; Deaton; 763
Leukemia, in mice fed bezo (a) pyrene; Rigdon, Benge, Kirchoff, Mack and Neal; 803
Leukemia, purification and properties of lysyl ribonucleic acid synthetase from human chronic lymphocytic leukemia cells; Kesden; 923
Leukocytes, low total count in chronic lymphocytic leukemia; Deaton; 763
Leukocytic response, influence of adrenalectomy and cortisol on *S. aureus* infection; Higginbotham; 67

Lipid metabolism, effect of carnitine in the rat heart; Rodis; 932
Lipolysis, effect of dihydroergotamine and nicotinic acid on dibutyryl cyclic amp-induced lipolysis; Ishii; 921
Lumpers and Sorters; Schreiber; 939
Lung, radiolabeled styrofoam phantoms of; Carbonell; 912
Lupus erythematosus, viral nucleoprotein strands in the kidney and lymphocytic activity in culture; Sinkovics, Gyorkey and Thoma; 887
Lupus erythematosus and rheumatoid arthritis from a defect in inflammation; Stone; 323
Lymphocytes, antihuman globulin; Townsend, Vyvial, Wood, Remmers, Sarles, Canales, Beathard, Fish, Muniz, Levin and Ritzmann; 497
Lymphocytes, cellular response in the brain to concussion; Bryan and Walker; 27
Lymphocytes, and viral nucleoprotein strands in the kidney—a fatal case of lupus erythematosus; Sinkovics, Gyorkey and Thoma; 887
Lymphoid cell line, immunofluorescence studies of; Trujillo, Shively, List-Young and Gott; 117

Marrow coagulation, localization of factor XIII in megakaryocytes by fluorescent tracing; Kiesselbach; 923
Melanoma, tumoricidal effects of argon laser and cobalt^{60} radiation on; Garcia; 918
Mental illness, relatives' reaction to; Marshall; 926
Meningioma, human spinal implant inducing tumor in mice inoculated with human thymus antiserum; Anigstein, Anigstein and Unterharnscheidt; 341
Metabolism, of connective tissue; Shurley, Hinkle, Hern and Shetlar; 1057
Microslide diffusion analyses; Glenn and Becker; 997
Milk virions; Moore, Sarkar, Kelly, Pillsbury and Charney; 1027
Mitomycin, chromosomal effects as a potential recombinogen in mammalian cell genetics; German and La Rock; 409
Molecular orbital indices, calculation of; Novak and Furlong;
Mononucleosis, study of infectious, receptors of cattle and sheep erythrocytes; Callahan; 912
Morphine, pharmacological effects on n-methyl morphine; Foster; 918
Motoneuron, a new method of excitability testing; Ott; 929
Mushroom poisoning, relationship of glutathione reductase to; Hamon; 920
Myocardial infraction, contributions of ultrasound to the study of; Bowes; 911
Myocardial infraction, experimental electrogenic model; Feldtman; 916
Myofibrils, histochemical studies of them in renal epithelial and mesangill cells; Harper; 920

Nematodes, treatment by thiabendazole; Kotcher, Chavarria, Gamboa, Guevara and Villarejos; 629
Neuropathy, experimental coyotillo poisoning in goats; Charlton and Pierce; 389
Nitella membrane, an attempt to measure impedance changes during action potentials; Steffin; 935

Ovarian steroid, dehydrogenase activity in the gonadotrophin-treated immature rat; Crisp; 35
Ovicidal effects of thiabendazole on helminths; Egerton; 561
Oxygen therapy, hyaline membranes; Greenberg, Gyorkey and O'Neal; 1005
Oxyuriasis, treatment by thiabendazole; Mullin and Imperato; 615

Pancreas, function following proximal pancreatectomy; De Lane, Fish and Haglund; 963
Pancreatectomy, pancreatic function that follows; DeLane; 914
Paralysis, paralytic disease of c58 mice; Kauffman; 922
Parathyroid extract, its effect on phosphorous excretion; Ranly and Runnels; 795

Peliosis hepatis; Weir, Decherd and Beathard; 1105
Penicillamine, treatment in Wilson's disease and effect on structural proteins; Jaffe; 921
Phosphorous excretion, as affected by parathyroid extract; Ranly and Runnels; 795
Phosphorylation of glucose in normal chicken liver; Ash; 909
Pinocytosis, electron microscope study of thorotrast ingestion by amoebocytes; Nakahara and Bevelander; 101
Pinworm, treatment by thiabendazole; Davis; 623
Pituitary, early development of cetacean pituitary gland; Sinclair; 1065
Placenta, spontaneous activation of plasminogen; Trieff, Smith and Sgouris; 505
Plasma urea, influence of its concentration on sodium transport in the diseased dog kidney; Thomas; 936
Plasminogen, spontaneous activation of; Trieff, Smith and Sgouris; 505
Platelets, adhesion in bleeder swine measured by glass bead column; Cooper, Cornell, Muhrer and Garb; 955
Poem; Greenstein; 319, 941
Poem; Sinclair; 711
Pollution, and cancer in a petrochemical area; Neal and Rigdon; 787
Potassium, bladder of *Bufo marinus* as an excretory organ for; Kallus and Vanatta; 419
Precipitin system, quantitation; Glenn and Becker; 997
Pregnancy, amniotic fluid analysis in RH sensitized pregnancies; Powell and Lewis; 471
Prothrombin, studies of the activation of radioactive human; Cooper; 913
Pulmonary edema, electrical impedance in early detection of; Lauridson; 924
Pyrrolizidine, poisoning as a clinical diagnosis; Courvoisie; 913

Quantum biochemistry; Novak and Furlong; 1041

Radioautography, aldosterone receptor sites in tissues and cells; Cameron, Tolman and Harrington; 367
Radioautography, cellular response in the brain to concussion; Bryan and Walker; 27
Recombinogen, mitomycin's chromosomal effects in mammalian cell genetics; German and La Rock; 409
Renal transplantation and rejection; Beathard; 715
Reserpine, alteration of calcium mediated effects in mice; Carrier, Hume and Carrier; 381
Respiration, capillary pH and birth weight as prognostic aids in respiratory distress syndrome; Pape; 930
Respiratory distress syndrome, plasma estriol levels in infants with; Vollman; 937
Retinopathy, fluorescein angiography: a study on diabetic retinopathy; Eberdt; 915
Rh factor, amniotic fluid analysis in Rh sensitized pregnancies; Powell and Lewis; 471
Rhinovirions, effects of hydrogen ions on morphology and infectivity of; Reeves; 931

Sarcoma, in vivo synchronization of Walker cells; Smolen; 933
Shock, effects of hemorrhagic shock on the extracellular fluid space of the nephrectomized baboon; Virgilio; 937
Shock, possible model for the pharmacologic study of shock in mice; Martin; 926
Stannous fluoride and dentin solubility; Sandoval and Shannon; 111
Staphylococcal infection, increased resistance following administration of beef heart extract; McCoy, Verwey and Bass; 457
Stenella gonads, embryogenesis of; Sinclair; 489
Sterol metabolism, chromatographic examination of human brain sterols; Van Lier and Smith; 167
Students and Practitioners—The Same

Yesterday, Today and Tomorrow? Tupin; 709

Tetany, alteration of calcium mediated effects in mice by reserpine; Carrier, Hume and Carrier; 381

Tetany, changes in tissue electrolytes, lipids and glycogen; Liu and Overman; 93

Thermoluminescence, ultraviolet-induced changes in it from gamma-irradiated lithium fluoride; Gower; 918

Thiabendazole, chemistry of; Brown; 533

Thiabendazole, ovicidal and larvicidal effect on helminths; Egerton; 561

Thiabendazole, and related compounds in treatment of hookworm infestation; Chuttani and Ghouri; 597

Thiabendazole, toxicological, pharmacological and antifungal properties; Robinson, Sibler and Graessle; 537

Thiabendazole, treatment and control of parasitic infections in man; Campbell and Cuckler; 665

Thiabendazole, treatment of creeping eruption; Battistini; 645

Thiabendazole, treatment of creeping eruption; Stone; 659

Thiabendazole, treatment of dracunculiasis; Raffier; 601

Thiabendazole, treatment of *Enterobius vermicularis;* Mathies; 611

Thiabendazole, treatment of human trichinosis; Hennekeuser, Pabst, Poeplau and Gerok; 581

Thiabendazole, treatment of intestinal nematodes; Kotcher, Chavarria, Gamboa, Guevara and Villarejos; 629

Thiabendazole, treatment of oxyuriasis; Mullin and Imperato; 615

Thiabendazole, treatment of pinworm infestation; Davis; 623

Thiabendazole, veterinary uses; Eaton, Siegmund, Rankin and Bramel; 693

Thyroid disease, acral bone and soft tissue changes associated with; Nixon; 929

Thyro-parathyroidectomy, changes in tissue electrolytes, lipids and glycogen during tetany; Liu and Overman; 93

Transplantation, of bone using a tubed pedicle flap as carrier; Davis; 914

Travel in Academia; Fish; 4

Trichinosis, treatment by thiabendazole; Hennekeuser, Pabst, Poeplau and Gerok; 581

Tumor cells, normal tissue antigens; Milas and Suit; 467

Tumors, effect of anti-thymocyte sera on the growth of plasma cell tumors in mice; Mandel; 925

Tumors, effects of cortisol and thymus antiserum on sarcoma 180 and antibody responses; Anigstein and Anigstein; 753

Tumors, induced by human spinal meningioma implant in mice inoculated with human thymus antiserum; Anigstein, Anigstein and Unterharnscheidt; 341

Tumors, protein synthesis in Ehrlich ascites tumor cells as related to "decycling"; Meyskens; 927

Tumors, relationship of viruses to the origin of human breast cancer; Seman, Myers, Williams, Gallager and Dmochowski; 839

Tumors, spontaneous growth patterns; Garb and Sharma; 401

Turner's syndrome (poem); Greenstein; 941

Type B particles in human milk; Moore, Sarkar, Kelly, Pillsbury and Charney; 1027

Uremia, altered lymphocyte response; Daniels; 913

Uterine DNA, competitive effects of estradiol-17α on the estradiol-17β induced physical change in; Speichinger; 934

Ventricle, measurement using cineradiographic techniques; Hamner and Bjork; 57

Ventricle, ultrasonic recordings from the LV demonstrating the response to up-

right exercise in man; Valenzuela; 937
Veterinary anthelmintic, thiabendazole; Eaton, Siegmund, Rankin and Bramel; 693
Viral nucleoprotein strands in the kidney, and lymphocytic activity in culture—a fatal case of lupus erythematosus; Sinkovics, Gyorkey and Thoma; 887
Viruses, their relationship to the origin of human breast cancer; Seman, Myers, Williams, Gallager and Dmochowski; 839
Viruslike particles in human breast cancer; Chopra and Feller; 945
Von Willebrand's disease; Cooper, Cornell, Muhrer and Garb; 955
